

TELECOM EXPENSE MANAGEMENT · PLATFORM + PEOPLE

Telecom Spend, Finally Under Control.

Our TEM platform plus GMG's managed services gives you full visibility across every carrier, line, and circuit, recovers the savings hiding in your bills, and takes telecom off your team's plate.

15% to 40%

first-year reduction on telecom spend

WHY COMPANIES COME TO US

No single view

VISIBILITY

Spend scattered across wireless, wireline, voice, and data, across every location and carrier.

Billing leaks

COST

Overcharges, unused services, mis-applied credits, and contract terms that go unhonored.

AP & IT overload

OPERATIONS

Invoice approvals, disputes, and carrier chases pulling your team off strategic work.

Audit & compliance

RISK

No clean trail when finance, audit, or leadership asks what are we paying for, and why?

WHAT YOU GET WITH GMG'S TEM SOLUTION

Full visibility

Every line, circuit, device, and dollar across wireless, wireline, voice, and data, in one platform.

Money recovered

Billing errors caught, credits chased, and contract rates enforced. Every invoice, every month.

Carrier accountability

We track when each bill should arrive. Missing or wrong invoices get chased before they cost you.

Time back

Once live, monthly invoice approval drops to minutes. Your AP and IT teams stop chasing carriers.

WHAT'S DIFFERENT ABOUT US

Adaptability

We shape our TEM platform around how your team already works. Custom reporting is included, never billed extra.

White-glove service

A dedicated account manager and analyst team act as an extension of your staff. We do the heavy lifting; you keep final approval.

Vendor-agnostic advisors

We partner directly with leading carriers while staying independent, so recommendations are built around what's right for you — not a single vendor's agenda.

MEET GMG COMMUNICATIONS

EXPERTISE

15+ years of telecom & technology advisory experience

BASED

Coral Springs, FL

APPROACH

Vendor-agnostic, advisory-first — partnering directly with leading carriers

FOCUS

Connectivity, cybersecurity, and cloud/IT infrastructure — TEM as part of a broader technology strategy

HOW WE RUN YOUR TELECOM LIFECYCLE, EVERY MONTH

01 ACQUIRE

Invoices captured from every carrier (paper, EDI, portal, email) and loaded to our platform.

02 AUDIT

Every line audited against contract rates and usage. Exceptions flagged and worked with carriers.

03 REVIEW

Cost allocated to your GL. You approve in minutes; a feed goes to your AP or ERP on your schedule.

04 DISBURSE

Optional managed Bill Pay: one deposit to GMG, we pay every carrier on time. No late fees.

Let's find your first 10–30%.

A 30-minute working session: share a few invoices, get back a directional savings range for your environment.
